

# SmartStand

## PROJECT PROFILE

### **CLIENT:**

Well Known Electronics Company

### **LOCATION:**

Santa Cruz, CA

### **PROJECT DESCRIPTION:**

This SmartStand installation will be Central Coating Company's (CCC) second project with this client. CCC installed a sprayed polyurethane foam roof system as part of the traditionally racked 260kw PV system on Building A. Starting in November 2010 CCC will be installing a sprayed foam roof and SmartStand racking for a 115kw PV system on Building B. The SmartStand installation has passed plan check and a building permit has been issued. For future updates on this project please visit [www.smartstandsolar.com](http://www.smartstandsolar.com).
